FROSTS CAUSE ADVANCE | ADVANCE IN COTTON IN VALUES OF CORN

Chicago, June 24.—Frosts in Ohio, Michigan and Indiana gave a decided upturn today to the value of corn. Opening prices, which varied from unchanged to %c lower with July \$1.43\% and August \$1.46\% \text{@1.46\% were followed by an advance all around to well above Saturday's finish. Oats were relatively weak as a result of hedging sales. After opening \%c to \%c down with August 68 to 68\%c, the market underwent a further sag and displayed but little power to rally. Liberal receipts of hogs weakened provisions. Most of the trading was in lard.

The close was heavy \%c to \%c net lower, with July \$1.43\% to \$1.43\% and August \$1.46 to \$1.46\%.

the absence of any great enemy activity along the fronts in France and Flanders during the past few days might be accounted for by the movement of German reinforcements toward Italy. With Austria facing fam-ine and revolt at home, it is believed that Germany will undertake to throw powerful forces to the rescue to pre-vent the grave consequences to her ally that would be certain to follow a real defeat at the hands of the Italians.

There is much speculation among American and allied officers here as to what steps Gen. Foch may be taking to deal with this situation. Unity of command is counted upon to prevent another such catastrophe as that which followed the first great Austrian offensive, and, as the Germans move southward to aid their tottering allies, allied soldiers may be on their way to further strengthen the rejuvenated

Regarding Resignation of Aus trian Cabinet-Entrusts Affairs to Premier.

Amsterdam, June 24. - Emperor Charles, says a Vienna dispatch, has reserved his decision regarding the resignation of the Austrian cabinet, In the meantime, he entrusts Premier von Seydler, with the further direction of affairs. The emperor's letter to Dr. von Seydler, says:

"As it is my intention, while firmly adhering to the confident relations of the parties which hitherto have always stood up unconditionally for the interests of the state to first examine all the possibilities as to how an arrangement of public affairs could be as-sured, I reserve decision respecting the request of resignation and meanwhile entrust you with the further direction of affairs,"

OF 17 TO 30 POINTS

New York, June 24 .- A somewhat irregular opening was followed by firm-ness in the cotton market today. First prices were steady at a decline of 1 point on July, but 51 points higher on August and 21 to 30 points on later months. A private crop report making the condition 84.9 compared with the government report of 82.3 last month, seemed somewhat disappointing from a bearish standpoint while buying was promoted by the continued favorable character of the war news and reports from Fall River that the government had rewritten its goods specification, per-mitting the use of low middling instead of middling in certain cases. July sold up to 26.61c and October to 24.90c before

the end of the first hour, making net advances of 17 to 30 points.

The early advance attracted a great deal of realizing. There seemed to be less nervousness over the crop situation in the southwest owing to showers and slightly lower temperatures while the buying promoted by the bullish features in evidence early appeared to have left the market in an easier technical position. Prices cased off in consequence with July reacting to 26.45c while October sold at 24.59c and December at 24.20c, or a shade under Saturday's figures. vances of 17 to 30 points

Lookouts Take Close Game From Little Rock

Howard Merritt and Sam Young had a great pitchers' battle on Andrews field Sunday afternoon with the result it took until the last half of the ninth inning to score the single run of the game by the locals. Despite the fact that both teams had a number of chances to score they refused, falled and neglected to take advantage of them. Tommy Leach and Fred Graff scored the only run of the game. Leach went to second on a single, which Boman booted. Graff then hit over the first sack, scoring Leach, and the game ended. A large crowd witnessed the game. The score is as follows:

Little Rock 0 Chattanooga 0 6 2 Batteries-Young and Brottem; Merritt and Higgins.

CLOSE-UPS IN SPORTDOM

By ALLAN MARKLEY International News Service Staff Correspondent.

New York, June 24.-Joie Ray, the crack distance runner of the Illinois Athletic club, still believes that he can break the world's mile record, and is demanding a chance to try under more favorable conditions. Ray said recently he believed himself not only capable of beating the mark of 4 minues 12 3-5 seconds set up by Norman aber in Tarvard Stadium, but that he can make it in 4 minutes

and 10 seconds. Ray was to try for the mile record at a special race arranged for the Harvard Stadium this month, but the plans fell through. He is now planning on trying to hang up a new rec-ord at the national championship meet, which wall be held in the fall, probably at Philadelphia probably at Philadelphia some time in September.

The crack runner from the Illinois Athletic club has not only performed brilliantly, but has been a consistent distance runner in practically all of his races.

If Joie is to run for the mark at the national championship meet it will be necessary for the authorities in charge of that affair to arrange a special race. It is hardly to be ex-pected that any runner would attempt to break the world's record without some fast men to go over the course

with him. It was under the most favorable conditions that Norman Taber set the mark that stands today as the rec-ord. He had the best of men in the race with him and was running against them on a fast track under handicap. These men were pace-set-ters and drew the famous distance man to his utmost effort.

Ray says that he prefers the fail date for his try for the record, as he is always at his best when the heat of the summer is past.

Government to Respect Rights of Ball Clubs

New Yor, June 24.—Though baseball has been classified as nonessential by interpretation of the "work or fight" order, there was no keynote of alarm sounded in baseball circles here today game.

Baseball men in general believe that the sport will be permitted to con-tinue for the three months of the sea-son, which will remain after July 1, when the new draft rule goes into effect, and in some quarters there is hope that the future of the game can be preserved.

That the ruling will not be applied

to baseball until a specific case is brought up by some local draft board is the general opinion, and the mag-nates are satisfied that the govern-ment will be considerate of ther investments and propert? rights.
President Wilson is known to be an admirer of baseball and if a final analysis of the order rests in his hands it is expected that the organ-ized baseball leagues throughout the country will be permitted to finish out their seasons. There is no denying the fact that a strict application of
